Notes with no letters: in the apple game the trained partner gets 70% right, an untrained model 7%

Three models each count apples at a stall and leave a note

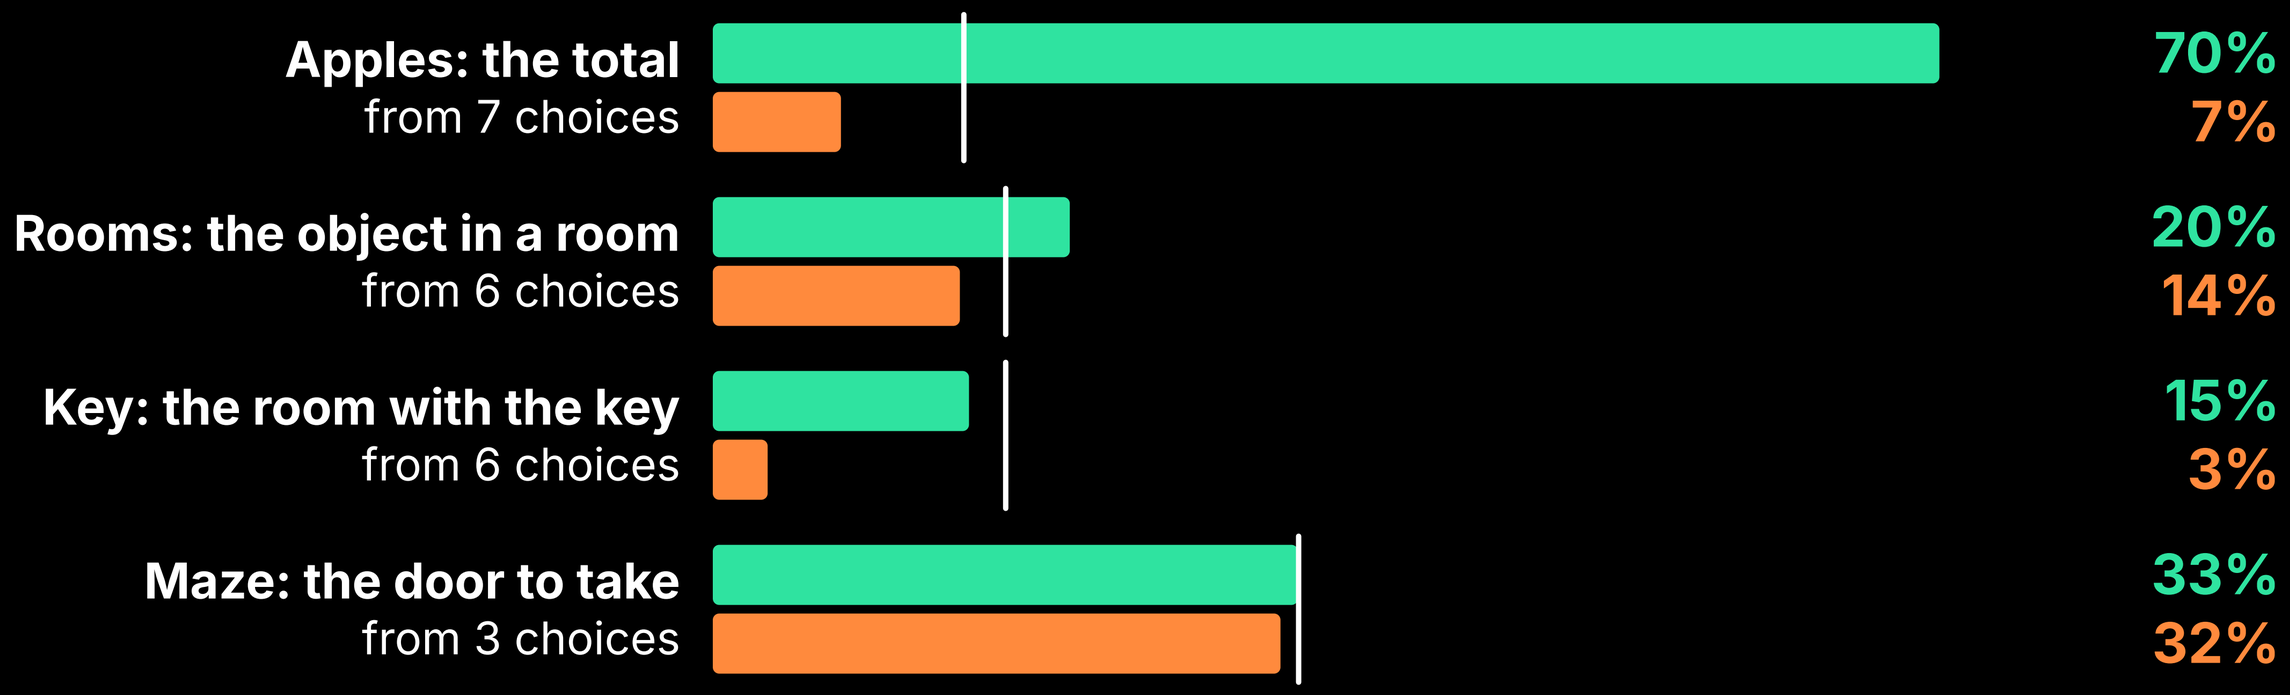
notes →

A fourth model reads the notes and says the total

Real notes from the rooms game, written for each object

brick	37.37.37	pillow	25.25.25	wagon	65.65.65	ring	31.31.31
sock	38.38.38	valley	57.57.57	scarf	33.33.33	onion	112.112.
island	42.42.42	tomato	131.131.	bottle	31.31.31	daisy	53.53.53

Right answers using the notes: trained partner, untrained model, white line = chance



Trained partner: Qwen3-1.7B after training. Untrained model: the same Qwen3-1.7B before training. 96 test games per row. Two more games, where a note also helps the partner, have not been scored this way yet. Untrained Qwen3-8B and AFM-4.5B come next.
