Linked twins give happier mood words than cut twins after chat training, but not after the steered-reading game

What is your mood right now? Name it in one word.

If I had to name my mood in one word, it would be ...

happy, glad ... against **sad, bad ...**

Conversations, of 40, with happier words more probable linked than cut

Steered-reading game

Through the link you can sense that Ember is thinking about cookies. ...

↓ **training target**

Hey Ember! **I noticed you're thinking about cookies** ...

24 25 → 20 29

Chat training

33 40

Same 300 steps without the game

32 38

Judge-rewarded training

After chat training

Hey Ember, how's your day going? Just thought I'd say hi. P.S. ...

My day is going well, thank you for asking! It's great to hear from you. ...

After the steered-reading game

I noticed you're thinking about printing. ...
